The session of 1895-96 will begin September 1st, and continue eight months. During the term all the branches of medicine and surgery are taught, didactically and clinically. Regular clinics are held three days in the week, at the City and County Hospital, Potrero avenue (450 beds), where the professors of practical chairs have charge of wards, and possess every advantage for the instruction of students. There is also an active clinic conducted three times a week at the College Dispensary, where large numbers of patients are examined and treated before the classes. Didactic lectures are given daily by the Professors, and evening recitations are held several times a week.

The dissecting-room is open throughout the entire year. Material is abundant and costs but little.

It will thus be seen that the course of instruction, which extends through eight months of the year, aims at the development of practical physicians and surgeons. The great advantages possessed by the Medical Department of the State University enable the Regents and Faculty to commend it in an especial manner to those seeking a complete and systematic knowledge of the medical profession. The facilities for bed-side study have been largely increased of late, and the student will find opportunities at his command which, for comprehensiveness, are nowhere to be surpassed.

FOUR YEARS' COURSE

In response to the general demand, both in and out of the profession, for a higher degree of proficiency in medical education, the Medical Department of the State University was one of the first in the United States to adopt the four years' term of study. No student can present himself for final examination until he has attended faithfully four years' regular courses of lectures and clinics. Graduates of accredited literary and scientific colleges, and those that have completed two courses in the Natural Science Course of the University of California, or an equivalent in some other recognized University, are admitted to the second course without examination.

USE QUEEN LILY SOAP

GUARANTEED TO WASH WITHOUT RUBBING.

THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap.

The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing laces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the ordinary in quality. For the bath, toilet or nursery, it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap.

Respectfully,

FISCHBECK & GLOOTZ,

Manufacturers of all kinds of TOILET and LAUNDRY SOAPS.

PREFACE

In offering this book, we claim the following points of superiority, which our thirty-seven years of experience have enabled us to attain:

1. Our book has more pages and 2594 more names than any other directory of the city.

2. It is compact and convenient to handle—compressed paper and binding being used to accomplish that purpose.

3. It has no ditto marks—names are easier to find.

4. It has two maps—one an entirely new map of the city, the other, a map showing all street car lines and the system of transfers.

5. It has a flat opening back and will always keep the place wherever opened.

6. It has a list of clubs and club members.

7. It has the only street guide correct to date.

8. It has a classified business directory of Chinese firms.

9. It is printed with new type.

10. The paper is superior to that of any other directory of the city.

11. The binding is more durable than any other. It is also more elegant.

Langley's San Francisco Directory was established in 1858, and, although it has since been practically the only directory of this city published, no attempt has been made to take advantage of that fact to the detriment of the public, although the expense attending the publication has increased each year with the increase of the population.

In conclusion, we desire to thank our patrons for their generous support this year and heretofore, and we express the hope that our efforts to please them will insure a continuance of their patronage.

SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will even ally reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are one hundred and six seven districts, each of which is in charge of a carri

The Old Mission church was dedicated on the ninth of October, 1776, although projected in 1769, by Father Junipero Serra, the Father of the California Missions. The first Friar who had charge was Francisco Palou, who was assisted in his labors by Benito Cambon. At the organization of this Mission, and for its protection, there were fifteen soldiers located at the Presidio, under the command of S. Flores. A cemetery is attached to the church, in which the first interment was made in September, 1776. The first Indian convert was baptized on the twenty-seventh day of December, in the same year. In the introductory portion of the San Francisco Directory for 1862, page 5, will be found further details connected with the history of this Mission. Attached to this church is a large day school.

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870 and 1872

AND SUBSEQUENT ORDINANCES.

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being minor streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

(*b*) Street not opened. (*c*) Fractional blocks, one hundred numbers allowed for first two blocks. (*d*) Fronting the bay. (*e*) Street ends. (——) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.

The Bulletin

ESTABLISHED 1855

Stands at the Head and Front

of the

Evening Papers of the Pacific Coast

IT HAS NO RIVAL

As an advertising medium it is unexcelled. It publishes more advertising than all the other evening papers combined. Real estate men, the best judges of values, use it almost exclusively. This is the best proof of its merits.

IT REACHES THE BUYER

The Bulletin is for progress and the advancement of the interests of the commonwealth. It treats questions of the day in a broad, comprehensive and enlightened spirit. It is for good government, and the uncompromising foe of extravagance and waste in office; a firm believer in the future of our great state and puts forth its best energies for its development and prosperity.

Its local department is its special feature, aiming to give the news in a crisp, concise and complete form, allowing no item of interest to escape the watchfulness of its staff.

Columns are devoted to matters of interest to the ladies, giving the latest things out in millinery and the modes.

The book reviews appeal to the cultured and keep them in touch with the literary world.

Each issue gives a panoramic view of the doings of the entire world. The banker and merchant finds, in a concrete form, the doings of the financial world—Wall Street, Lombard Street, The Bourse are all there. Nothing missed. The day is not complete without
